

# Cessation Considerations for Individuals with Coexisting Conditions

*with Dr. Maya Vijayaraghavan,  
Director of the University of California, San Francisco  
Smoking Cessation Leadership Center*

Tobacco use harms everyone's health. For people who smoke and have conditions such as diabetes, asthma, or cardiovascular disease, effects on their health can be even worse. Increase your knowledge and develop skills to help people with pre-existing conditions quit smoking and improve their health.

**Tuesday, June 4, 2024  
10:00 - 11:00 am (PT)**

**Dr. Maya Vijayaraghavan, MD MAS (she/her)** is a practicing general internist and a researcher in tobacco control with a focus on populations experiencing homelessness. She is the director of the Smoking Cessation Leadership Center and serves as the co-director of the UCSF Center for Tobacco Control Research and Education postdoctoral training program. Her work in the last decade has helped quantify tobacco use among marginalized communities and has led to interventions to improve smoke-free policies and access to cessation services in these populations.
